The Art and Science of Teaching Academy

December 1 & 2, 2010, February 9 & 10, and April 6 & 7, 2011

Milwaukee Marriott West, Waukesha

SEND A TEAM!

A series of 6 professional development days in 2010-2011

Each participant will receive a copy of *The Art and Science of Teaching*.

A Comprehensive Framework for Effective Instruction

In his book *The Art and Science of Teaching*, Dr. Robert J. Marzano describes research-based practices educators use to maximize student achievement. In the Art and Science of Teaching Academy, you will learn this comprehensive model of effective teaching that addresses components of instruction, management, and engagement. During this multi-day, interactive workshop, Dr. Marzano and Dr. Tony Frontier will teach the central concepts and strategies described in the Art and Science model, help teachers and administrators consider implications of the model for supporting quality teaching in every classroom, and provide opportunities for teams of teachers and administrators to engage in both short and long-term planning for implementing components of the model in classrooms and schools.
